# Welcome

TO THE GRIFFITH REGION

*Take time to discover the Griffith region,  
you will be delighted at what you find.*

Griffith is one of Australia's most vibrant cosmopolitan centres. With a population of 27,000, Griffith exudes a rich blend of cultures and traditions. Today, more than sixty nationalities add to our cultural tapestry which includes Italian, Indian, Fijian, Filipino, Samoan, Pakistani, South African, Turkish, Afghani, Tongan, Taiwanese, Malaysian and Chinese communities along with many others.

One of Griffith's most endearing features is Banna Avenue, an attractive tree-lined main street stretching over several blocks. With an enviable strip of enticing boutiques, gift shops, galleries and Italian cafés, it's a wonderful place to spend your time. Window shop with a gelato, or relax at an outdoor café table with a glass of local pinot grigio and watch the passersby.

Life in Griffith revolves around food, wine, culture and family. The annual festivals are a splendid time to visit as they showcase the true essence of Griffith.

When you visit Griffith we know you will feel at home, especially once you've had a taste of our warm, genuine hospitality.

Be sure to make the Griffith Tourism Hub your first stop. We provide high quality visitor servicing, marketing and events. Wander through the impressive interpretive display area and gain an overview of all that is Griffith, then chat with our friendly staff who will provide you with local information. We also provide customised itinerary planning for groups visiting the region. Free WiFi is also available.

The Gift Shop stocks a diverse range of regional produce, Indigenous artwork and quality giftware, as well as Griffith and Australian souvenirs and merchandise. We also prepare customised hampers to suit your needs.

## ACKNOWLEDGEMENT OF COUNTRY

Griffith is located in the heart of Wiradjuri Nation. The Wiradjuri are the largest Aboriginal group in central NSW, by area and population, which reaches from the Blue Mountains in the east, to Hay in the west, north to Nyngan and south to Albury. This area is also known as “the land of three rivers”.

Griffith City Council acknowledges the Wiradjuri people as the traditional owners and custodians of the land and waters, and their deep knowledge embedded within the Aboriginal community.

Council further pays respect to the local Wiradjuri Elders, past, present and those emerging, for whom we acknowledge have responsibilities for the continuation of cultural, spiritual and educational practices of the local Wiradjuri people.

Many Griffith streets and nearby towns are Aboriginal words. Here are a few you may come across and their English meaning:

*Banna* - rain or water

*Barellan* - meeting of water

*Benerembah* - man with eloped woman

*Jondaryan* - a valley

*Yenda* - swampy place

# Our Region

## The Food Bowl of Australia

Commonly referred to as the 'food bowl of Australia', Griffith and the surrounding region is home to an extremely vast and diverse range of primary industries. Agriculture is at the heart of the city and the statistics are impressive (see infographic next page).

Permanent plantings range from citrus, wine grapes, nuts and stone fruits. Annual crops are grown based on demand, including rice, cotton, grains and vegetables. Poultry, livestock and aqua culture also contribute to the diversity of our primary industries.

As a result of the expansive production of such industries, Griffith is also home to world-class engineers and manufacturers, particularly in the areas of design and

fabrication of specialist irrigation, agricultural and wine production equipment.

Not only are we Australia's largest wine region, we are also home to the sweetest navel oranges and hazelnut trees for chocolate maker Ferrero Rocher are even grown nearby. The region produces premium products such as olive oil, trellis tomatoes, quails, melons and craft beer, just to name a few. Even the popcorn you buy at the movies is grown just down the road!

With such an abundance of world class local food producers, wineries and passionate chefs, it is little wonder that Griffith has become a destination for foodies.

What started as a hobby in his spare time turned into a strong desire to craft not just any Whisky but a Single Malt Whisky in the Scotch tradition.

# Vino Per Favore

## One hundred years of winemaking, six generations of family business, thousands of accolades... and counting.

No trip to Griffith is complete without a visit to the city's outstanding cellar doors. This region's wine industry has a strong heritage of Australian pioneers and Italian immigrants who saw the potential of the Mediterranean climate, Murrumbidgee Irrigation Scheme and the rich red soil of the Riverina.

The Riverina wine region is centred around the city of Griffith. There are so many kilometres of trellised vines they could lap Australia's coastline 3 times!

Historically, the Riverina wine region has been known mostly for its internationally acclaimed botrytis and fortified wines, as well as producing great quality table wines. Today the Riverina wine region is becoming highly

regarded for its alternative red wine varieties such as Durif and Montepulciano and Italian white wines such as Pinot Grigio and Vermentino. The region is also home to world renowned Yellow Tail and Noble One.

*Each winery adds its own flair to the craft, but ultimately they're tied together by their passion for community and showing off their little slice of Aussie wine country.*

# Explore Griffith

## Get outdoors and be inspired by nature, experience the best in country hospitality

Make sure you visit City Park on our main canal - a great place to stroll, picnic and play. Voted one of the top ten playgrounds in NSW, City Park is home to a terrific water play area as well as the tallest climbing frame in the southern hemisphere!

While you're in the precinct meander through the internationally-crafted sculptures, lining the Centenary Walk. Carved from 20 tonnes of Australian granite, these sculptures are a legacy of the very first International Stone Sculpture Symposium, held locally as part of our 2016 Centenary Celebrations.

Skateboarders should check out our state of the art skate park and pump track just off the main shopping strip in Olympic Street, featuring rollers, doubles, dragonbacks and more.

Sport is instrumental to country living and Griffith is no exception with pretty much everything on offer. You'll

find golf, 24-hour gyms, tennis courts, our indoor and outdoor swimming pools, yoga, cricket, soccer, touch, rugby, hockey, Aussie Rules, karate, dance, bowls, cycling, karting, water skiing, sailing and much more. Our Griffith Regional Sports Centre is equipped with indoor basketball courts, all-weather netball courts, hockey fields and synthetic running track. This precinct was newly opened in 2022.

Just off Scenic Drive, Hermit's Cave Lookout offers panoramic views across the city and farmland to Cocoparra National Park and Binya Hills.

Wear sturdy shoes and continue down the trail to the Hermit's Cave, home to the recluse Valeri Ricetti from 1929 to 1940. The Hermit's Cave is a surprising network of stone walls, caves and gardens. Pick up your copy of the Hermit's Cave trail map at the Griffith Tourism Hub to learn more about this fascinating story.

## GRIFFITH GOLF CLUB

The Griffith Golf Club is widely rated the best in the Riverina, and is a stern test of anybody's golf skills. Perfectly set in the foothills of Scenic Hill, the course is often described as an 'Oasis in the desert' because of its lush green kikuyu fairways and bent grass greens. It sits comfortably as one of the Riverina's gems, with native tree-lined fairways and an array of wildlife, with kangaroos almost always on the course.

Griffith has its own version of Augusta's famous "Amen Corner" with even the single figures markers struggling to play these 3 holes in even par.

A great way to explore the area is on your bike. The open flat countryside is pretty and inviting. There are various loops to suit rider ability, from beginners through to seasoned professionals, with plenty of great spots for coffee at the end of the ride!

Mountain biking is also catered for with off-road shared trails located on the outskirts of Griffith, along the rocky escarpment of Scenic Hill Reserve, and as well as the McPherson Ranges. There are fire trails to explore with the kids through to tracks for the committed mountain biker.

If you like bushwalking, we have you covered. Cocoparra National Park is a dramatic and rugged place, a haven for bushwalkers, birdwatchers and nature-lovers. With a landscape that's vividly alive and always changing. It offers well maintained walking trails and attractive picnic areas. Visit after rain to see the waterfalls and creeks in full flow, and come in spring to see the wonderful variety of wildflowers, orchids, wattles and tea tree bringing extra vibrancy to the land.

# Twitching

**Griffith is at the crossroads of bird migration particularly for eastern and western species so it's a very good area for twitching.**

Within the Griffith city area itself, there are very accessible sites where our local birds can be seen at close range. Perhaps the most notable of these is the Scenic Hill and Griffith Golf Course areas where Major Mitchell's Cockatoo and other parrot species are common.

Lake Wyangan and Campbell's Wetlands are also worth visiting for water birds and further afield, Cocoparra National Park and the adjoining Binya State Forest have some of the best birding sites in the whole of the Riverina.

For more information on birding in the region, call in and see the team at the Griffith Tourism Hub.

# History

Construction of main canal, 24 June 1916

## In 2016 the city of Griffith celebrated 100 years of settlement and growth.

The town of Griffith was proclaimed on 4th August 1916, and was named after Hon. Arthur Griffith, who was the New South Wales Minister for Public Works, 1910 – 1915. It was designed by Walter Burley Griffin, the Chicago architect who designed Canberra. Like Canberra, his design for Griffith featured a distinctive radial pattern with wide tree-lined streets, ring roads and parks. The first farms were made available in 1912, and the influx to the area increased as potential farmers from far afield as Sydney, Broken Hill and California responded to the Government's vigorous advertising campaign. Many Italian migrants were drawn to the area to pursue the type of farming familiar to them in the homeland. More recently, other nationalities have arrived creating a city rich in culture and diversity.

The first World War held up the building and settlement of the new town, but by late 1919 settlement had begun. The population of the area received a boost as returned soldiers settled on irrigation farms under government sponsorship. Some businesses were reluctant to leave the thriving Bagtown to relocate in the new town which was a considerable distance in the days of horse drawn transport.

By early 1920s, Bagtown had been abandoned and all that now remains is the small Bagtown cemetery. Griffith has ventured a long way from its early Bagtown years, from the introduction of irrigation, which is still the life blood of the area, to being proclaimed a city in 1987. It is hard to believe that the Griffith region was dismissed by the explorer John Oxley in 1817 as being 'uninhabitable and useless to civilized man.' Now a thriving oasis, thanks to the development of the Murrumbidgee Irrigation Area in the early 1900s. The MIA was established in 1912 following construction of the Burrinjuck Dam, Berembed Weir and 139km of canals. The irrigation scheme was designed to drought proof inland Australia and provide food security for the nation.

Banna Avenue, 1924

# Multiculturalism

With the opportunities created by irrigation, Italian migration was strong from 1913, with a second wave of Italian immigrants settling here after the second World War. As a result, to this day Griffith has the highest proportion of Italian ancestry of any Local Government Area in Australia.

From the 1970s onwards, the thriving economic conditions created by this agricultural oasis attracted a new wave of migration from around the globe.

Today, Griffith is home to a rich blend of cultures and traditions with more than sixty nationalities adding to its cultural tapestry including Italian, Indian, Fijian, Filipino, Samoan, Pakistani, South African, Turkish, Afghani, Tongan, Taiwanese, Malaysian and Chinese communities along with many others.

Griffith warmly welcomes, embraces and fosters the cultural enrichment that each group brings to the increasingly cosmopolitan city. Permanent settlement in the region continues to see these culturally diverse communities contributing significantly to the economic, cultural, religious, social and political life of Griffith.

Multiculturalism is a way of life in Griffith. Multiculturalism enriches the lifestyle and is celebrated by the many festivals and events held throughout the year.

# Discover Our Region

## Make Griffith your base and spend a couple of days out and about exploring the region.

Head south to Darlington Point and enjoy the walks, wildlife and attractions in and around the Murrumbidgee River. Altina Wildlife Park is a fantastic Australian zoofari with guided tours taking about two and a half hours.

Travelling west along the vast open plains of the Sturt Highway, stop in and visit Hay. A diversity of attractions, richness of cultural heritage and the warmth of true country hospitality awaits. Shear Outback, museums, wander the Bidgee Riverside Trail or hire a bike to see the sights.

North-west along the Kidman Way brings you to the gateway to the outback, Carrathool Shire. National Parks, rivers and abundant wildlife, call into the Black Stump Hotel for a cold drink at the tallest bar in the southern hemisphere or catch the "big one" in one of our rivers, your choices are endless.

Head east to Leeton via Whitton and take a tour through the Southern Cotton Gin and get educated on the cotton ginning processes. You can't pass by the Whitton Malt House with their unique cellar door experience, partnered with regional food, outdoor activities and a beautiful outdoor setting to kick back and relax. Continue on to Narrandera and visit Lake Talbot, Lake Talbot Water Park or picnic and relax by the river. Look out for one of our best loved native animals at the Narrandera Koala Reserve, home to more than 200 healthy koalas.

Head northeast of Griffith, out through Yenda and the country changes to broad acre farming, open plains, gentle rolling hills and large-scale wheat, barley and canola production. Fields of bright yellow flowering canola are a truly magnificent sight, and are at their best in August. There are plenty of lovely old pubs to visit on your way, as well as a scrumptious cheese factory in Coolamon and the Junee Licorice and Chocolate Factory.

*Follow scenic highways and wide country roads across the Riverina on an artistic journey of discovery.*
